Journal of Wind Engineering and Industrial Aerodynamics

Contents Volume 45 (1993)

Vol. 45 No. 1

Study of double concentric jets with different geometric configurations
M.S. Aly (Jeddah, Saudi Arabia) and M.I.I. Rashed (Giza, Egypt) 1
Local wind loading on the roof of a low-rise building
B. Bienkiewicz and Y. Sun (Fort Collins, CO, USA) 11
Wind loads on planar canopy roofs – Part 1: Mean pressure distributions
C.W. Letchford and J.D. Ginger (Brisbane, Qld., Australia) 25
An experimental study of the flow over a train in a crosswind at large yaw angles up to 90°
T.W. Chiu (Exeter, UK) and L.C. Squire (Cambridge, UK) 47
Icing on a small horizontal-axis wind turbine – Part 1: Glaze ice profiles
N. Bose (St. John's Nfld, Canada) 75
Icing on a small horizontal-axis wind turbine – Part 2: Three dimensional ice and wet snow formations
N. Bose (St. John's, Nfld, Canada) 87
Vortex wake of a transversely oscillating square cylinder: A flow visualization analysis
S.C. Luo (Singapore) 97

Announcements and call for papers 121

Vol. 45 No. 2

Potential flow in elbows
E.A. Brizuela (Clayton, Australia) 125
Performance of a staggered multi-rotor horizontal axis wind turbine system
M.A. Kotb and H.A. Soliman (Irbid, Jordan) 139
Boundary element analysis of unsteady aerodynamics of windmill rotors in the presence of yaw
G. Arsuffi, G. Guj and L. Morino (Rome, Italy) 153
Analysis of gust factors for use in assessing wind hazard
D.M. Deaves (Epsom, UK) 175
Numerical simulation of the flow field near an axial flow fan operating under distorted inflow conditions
G.D. Thiart and T.W.V. Backström (Stellenbosch, South Africa) 189
Note on geostrophic drag in the turbulent Ekman layer
D. Myrhaug (Trondheim, Norway) 215
Reynolds number effects on lattice structures forming part of a wind tunnel model
A.E. Holdo (Hatfield, UK) 229

Erratum 239
Announcements 243

Elsevier Science Publishers B.V.

Vol. 45 No. 3

Preface v
Some effects of crosswind on ventilators
B.K. Gosh (Borehamwood, UK) 247
Comments on "Some effects of crosswind on ventilators" by B.K. Gosh
H.J. Gerhardt (Aachen, Germany) 271
Détermination de l'action du vent et de la résistance au vent des exutoires de fumée et de chaleur naturels
P. Spehl (Brussels, Belgium) 275
Extended summary of "Détermination de l'action du vent et de la résistance au vent des exutoires de fumée et de chaleur naturels" (Wind effects and wind resistance of natural smoke and heat ventilators) by P. Spehl 289
Der VdS-Ringversuch. Die Überprüfung des Prüfstandeinflusses auf die aerodynamische Wirksamkeit von RA
H. Meessen (Hamburg, Germany) 291
Extended summary of "Der VdS-Ringversuch. Die Überprüfung des Prüfstandeinflusses auf die aerodynamische Wirksamkeit von RA" (The VdS-round-robin test. Testing-station-specific influences on the aerodynamic performance of smoke ventilators) by H. Meessen
H.J. Gerhardt 309
Aerodynamic efficiency of smoke ventilators – comparison of measurements on full scale and model ventilators
C. Kramer and H.J. Gerhardt (Aachen, Germany) 313
Methode d'essai aérodynamique et analyse des paramètres géometriques modifiant les performances des exutoires
J. Simon (Orsay, France) 325
Extende summary of "Methode d'essai aérodynamique et analyse des paramètres géometriques modifiant les performances des exutoires" (Smoke ventilators: an approach for the determination of their performance and some results) by J. Simon 339
Aerodynamic efficiency of smoke ventilators in light streets and shed-type roofs
H.J. Gerhardt and C. Kramer 341
